

# Make a Baby Puggle

Make your own baby echidna!

## You'll need:

toilet roll  
egg carton  
masking tape

scissors  
secateurs  
brown paint

lots of small twigs  
glue  
two buttons

Using masking tape, attach an egg carton segment to the toilet roll to make your echidna's body and beak.

Cut a 20cm length of masking tape. Place short twigs and sticks on the tape, leaving 2cm at each end.

Wrap the masking tape around the body - starting at the tail end. Repeat steps 2 and 3 until the toilet roll is covered.

Paint your echidna puggle brown. When it's dry, glue on button-eyes for extra personality!

Go on a Puggle adventure!  
Make tracks, scats and burrows.
