

# Botanic Gardens and Centennial Parklands (BGCP)

## Excursion Risk Assessment for School Excursions and Community Programs

### Hazard Locations:

Centennial Parklands  
 The Royal Botanic Garden, Sydney  
 The Australian Botanic Garden, Mount Annan  
 The Blue Mountains Botanic Garden, Mt Tomah

| Activity                                | Hazard Identification Type/Cause | Risk Assessment Use matrix | Elimination or Control Measures   | Who     | When       |
|---|----------------------------------|----------------------------|---|---------|------------|

**Risk Reduction Control Measures for school excursions and education activities at the Botanic Gardens and Centennial Parklands are:**

- BGCP Education Staff are trained in delivering education activities safely.
- The BGCP has Senior First Aid Officers on site and all education staff taking lessons maintain current First Aid Certificates.
- Accompanying teachers and group leaders supervise their students and participants in accordance with DPIE or their own school policy.
- BGCP Education Staff have first aid kits on hand and are in radio or mobile communication at all times.
- All students and participants are advised to wear sun protection and conduct themselves in a safe and responsible manner whilst in the Sites.
- At the commencement of activity, students, participants and teachers are briefed on the specific risk(s) associated with their upcoming activity and the appropriate actions they will need to perform to minimise these risks.
- BGCP Education Staff undertake safety ‘Tool Box Talks’ amongst themselves beforehand and with students and participants at the start of each session.
- As per DPIE policy, all BGCP Education Staff have a current Working with Children Check.
- During any incidents requiring evacuations on site, visiting students, participants and staff will follow evacuation procedures according to the supervising BGCP Education Staff member and or the BGCP Safety Warden.

| <b>Risk Assessment Matrix</b>                               |   |   |          |               |
|---|---|---|----------|---------------|
| <b>How serious could the injury be?</b>                     | <b>How likely is it to be that serious</b>              |   |          |               |
|   | Very Likely   | Likely  | Unlikely | Very Unlikely |
| Death or permanent injury                                   | 1   | 1   | 2        | 3             |
| Long-term illness or injury                                 | 1   | 2   | 3        | 4             |
| Medical attention & several days off                        | 2   | 3   | 4        | 5             |
| First aid needed  | 3   | 4   | 5        | 6             |
| <b>Severity</b> – is how seriously a person could be harmed |   | <b>Likelihood</b> - is an estimate of how probable it is for the hazard to cause harm |          |               |
| <b>Legend</b>   |   |   |          |               |
| 1 and 2   | Extreme risk: deal with the hazard immediately          |   |          |               |
| 3 and 4   | Moderate risk: deal with the hazard as soon as possible |   |          |               |
| 5 and 6   | Low risk: deal with the hazard when able                |   |          |               |

Risk assessment matrix as provided by the Department of Education and Communities for completing Risk Management Plans for school excursions. (Department of Education and Communities OHS Directorate 2006).

*Plan prepared by:* Manager, Community and Education Programs

*Date:* 25/06/20

*Review Date:* 25/06/21
