

## PLANT DISEASE DIAGNOSTIC UNIT

The Plant Disease Diagnostic Unit (PDDU) of the Royal Botanic Gardens and Domain Trust offers a wide range of plant disease diagnostic, pathogen detection and plant DNA identification services to the public, industry and government agencies.

### Services and Rates

The table below provides a list of our diagnostic services and associated charges. Our service fees go towards laboratory operation, service improvement and research.

If you already know the test required please fill in the form in the link below and follow the instructions on sample labelling and submission. <https://PDDU.formstack.com/forms/pddu>

The Royal  
BOTANIC GARDENS  
& Domain Trust
